

# CONSTRUCTION IMPACTS

The Champlain Parkway will result in temporary construction impacts to the surrounding neighborhoods as the new roadway is constructed and the existing roadways are repaved. Construction will be completed in stages to maintain bicycle and pedestrian access.

In addition to project-specific materials, press releases, and other media alerts, the City's website and social media accounts will be updated to help inform the community about construction activities. Weekly project updates will be provided.

A project hot line and email address will be available for the public to ask questions about the project.

In the **MAPLE AND KING STREET NEIGHBORHOOD**, Pine Street will be repaved and new sidewalks will be installed. Traffic signals will be installed on Pine Street at Maple and King Streets.

*During construction, vehicular and pedestrian detours will be necessary at different times in different locations.*

**Submit Comments:**  
*July 10 - August 24, 2020*
